

Voyager Star

Ydeevne, fleksibilitet og intelligens.

- Takket være specialiseret optik lyser Voyager Star præcis dér, hvor der er behov for det i en nødsituation. På grund af de brede afstandsværdier behøves der færre armaturer sammenlignet med andre løsninger, hvilket sænker de samlede projektkomkostninger.
- Voyager Star kan anvendes i en lang række monteringer. Udover den lavprofilerede, indbyggede version med diskret loftintegration fås armaturet også i en påmonteringsversion og kan integreres i Thorns PRIMATA-system.
- Udover nem konfiguration og adressering af armaturhuset ved hjælp af PROset-værktøjerne kan armaturhuset også forbindes til LITECOM- eller SB128-styreapparatet (E1D-/E3D-versioner). Derudover fås centralbatteriversioner (ECC-/ECS-versioner).

Fotografier, stregtegninger og fotometriske data er udelukkende repræsentative. Vælg et individuelt produkt for at få specifikke produktoplysninger.
